---

## PROFESSIONAL SUMMARY

---

Results-driven Frontend Engineer with 4+ years of experience building scalable, performant web applications with TypeScript and React. Proven ability to deliver polished user interfaces end-to-end, from component architecture to SEO-optimized production deployments. Complementary background in market research, data analysis, and brand strategy enables strong cross-functional collaboration. Passionate about clean code and impactful user experiences.

## PROFESSIONAL EXPERIENCE

---

### Software Development Engineer 2 | *Renegade Insurance*

Apr 2026 – Present

- Driving frontend development of new platform features using React, TypeScript and Next.js within a large-scale Turborepo monorepo.
- Conducting thorough code reviews and championing frontend best practices, improving code quality and consistency across the codebase.
- Collaborating closely with product and design to translate complex requirements into intuitive, pixel-perfect user interfaces.
- Identifying and resolving performance bottlenecks in component rendering and state management to enhance user experience.

### Software Development Engineer 1 | *Renegade Insurance*

Jul 2023 – Mar 2026

- Developed and maintained frontend features within a TypeScript-based Turborepo monorepo for a production insurance platform.
- Built a carrier appetite search marketplace enabling agents to efficiently match clients to suitable insurance products.
- Implemented a client-facing, SEO-optimized agent directory, improving organic discoverability and lead generation.
- Engineered an agency management CRM frontend with lead tracking and a quote submission flow matched to client needs.

### Venture Capital Research Extern | *Energy Innovation Capital*

Feb 2024 – Mar 2024

- Conducted deep-dive market analysis on geothermal technology, evaluating resource potential and environmental impact.
- Crafted and peer-reviewed investment summaries; presented pitch decks for companies including Sage Geosystems.

### Branding Strategy & Business Analytics Intern | *Beats by Dre*

Jan 2024 – Mar 2024

- Led primary research into Gen-Z brand sentiment for Beats by Dr. Dre using social listening and survey methodologies.
- Translated multi-channel data into actionable insights presented directly to senior leadership.
- Identified growth opportunities that informed product engagement strategy for the Gen-Z segment.

### Market Research Extern | *Extern (X)*

Nov 2023 – Jan 2024

- Conducted competitive landscape analysis using primary and secondary data sources; created concise market maps.
- Performed quantitative and qualitative research that directly informed client decision-making processes.

### Social Media Manager | *Renegade Insurance*

Feb 2022 – Dec 2022

- Managed TikTok content strategy and contributed to PR campaigns, maintaining brand consistency across all platforms.
- Organised events addressing women's leadership; led successful hiring drives and built team cohesion through internal programming.

**Social Media Manager** | *Ichhya Store and Events*

Aug 2021 – Jan 2022

- Drove a 30% increase in social media engagement and follower count within 5 months through data-informed content strategy.
- Introduced previously unexplored product lines to the local market via targeted research and strategic launches.

## EDUCATION

---
